NOTE FROM: OLIVER BONIS

Subject: Public Affairs Campaign on Central America
Elliott Abrams has just called from New York, followed by an urgent call from [REDACTED] last night. Costa Rican Interior Minister Garzon held a press conference in San Jose and announced that Costa Rican authorities had discovered a secret airstrip in Costa Rica that was over a mile long and which had been built and used by a Co. called Udall Services for supporting the Contras. In the press conference the minister named one of Vick's agents (Olstead) as the man who set up the field as a "training base for U.S. military advisors." Passage assessment: Udall Resources, Inc., S.A. is a proprietary of Project Democracy. It will cease to exist by noon today. There are no USC fingerprints on any of the operation and Olstead is not the name of the agent - Olstead does not exist.

We have moved all Udall resources (back) to another account in Panama, where Udall maintained an escorting service and cover office. The office is now gone as are all files and paperwork. The bottomline is that [REDACTED]

Elliott has said that he and the Secretary [REDACTED]
